

ArcSource Group, Inc. is a certified SBA 8(a), Economically Disadvantaged Woman-Owned Small Business (EDWOSB) that delivers training and management related services and IT support services to federal and commercial clients. We are seeking a **Hyperion Technical/Functional Specialist** resource to Support the Client's Oracle Hyperion Enterprise Performance Management Public Sector Planning and Budgeting application and Financial Data Quality Management Adapter Suite.

The primary responsibility will be to support the production application design, build, development, enhancement, integration, and test activities. Areas of assistance will include dimensions, metadata, business rules, calc scripts, calc script customizations, Essbase application components, SmartView, Data forms, Web Forms, reports, Task Lists, Hyperion security, data conversion, identifying alternate hierarchies, and loading source data into Hyperion. The Functional Specialist will be responsible for Oracle Data Integrator and Oracle Financial Data Management Enterprise Edition to manage metadata and load actuals, position, payroll, and other data as required.

This position is in Washington, DC.

Responsibilities Include:

- Serve as the back-up system administrator, responsible for the stopping and starting of services, applications, and data loads.
- Aid and work with Financial Systems support staff and conduct formal knowledge transfer sessions.
- Support and train users on use of Hyperion, especially SmartView functionality.
- Support for an upgrade from 11.1.2.3 to 11.1.2.4.

Primary Skills/Experience:

- Knowledge and experience working with Oracle Hyperion Enterprise Performance Management Planning or Public-Sector Planning and Budgeting application 11.1.2.3.700 or higher.
- Knowledge and experience working with Human Capital Planning loading employee and position-based data.
- Knowledge and experience loading source data into Hyperion with Oracle Data Integrator.
- Financial Data Quality Management Enterprise Edition, specifically Drill Through to the General Ledger of a Source System.
- Knowledge and experience with SmartView, Data forms, and Web Forms; and developing reports with Hyperion Financial Reporting Studio.

Hyperion Technical Specialist

Job Description

- Knowledge and experience configuring Essbase application components, business rules and calc scripts and calc script customizations.
- Knowledge and Experience developing reports with Hyperion Financial Reporting Studio and SmartView.
- Knowledge and experience working on a Hyperion upgrade project.
- Knowledge and experience with Hyperion Security.
- Knowledge and experience configuring dimensions with optimal dimension design and identifying alternate hierarchies.
- PeopleSoft Financials and Lawson HR Payroll applications, specifically the integration with Hyperion Enterprise Performance Management.

Employee Benefits:

- Medical, Dental, & Vision Benefits; 401k
- Long Term & Short-Term Disability; Life Insurance
- Three weeks PTO + Federal Holidays
- Salary dependent on skills and experience
