

**ArcSource Group, Inc.** is a certified Woman-Owned Small Business (WOSB) that delivers training, business operations and management related services to federal and commercial clients. We are seeking a **Database Administrator**, with expertise with Oracle DB, to join our team of qualified, diverse individuals. We are looking for a candidate to provide technical support to the PMO on the Defense Logistics Agency Procurement Integrated Enterprise Environment (PIEE) contract. This is a remote/telework position.

**Candidate qualifications must include:**

- ACTIVE NACL or Public Trust Clearance or be eligible to receive one through the background investigation process.
- Able to implement, configure, and troubleshoot database instances, replication, backup, partitions, storage, and access.
- Ability to install, configure, troubleshoot, and maintain a database system.
- Ability to write write/modify UNIX shell scripts.
- Strong experience with SQL, PL/SQL, T-SQL etc.
- Good understanding of ETL process.
- Ability to monitor databases for performance and create views and indexes where needed in order to enhance the performance of the database.
- Ability to formulate and maintain policies, procedures, and standards relating to database management.
- Ability to review database design and integration of systems and make recommendations regarding enhancements and/or improvements.
- Strong working knowledge of systems engineering foundations and system architecture.
- Strong technical design and development skills in order to provide scalable, efficient solutions to complex business problems.
- Strong analytical and problem-solving skills to address operational issues for business-critical systems.
- Experience working on high visibility / mission critical governmental program performing all technical duties independently as well as working in a distributed team environment and meet schedule requirements.
- Ability to stay abreast of industry trends, perform product evaluations, and advise the Program Management Office on emerging technologies.
- Provide sound evaluations and critiques on technical problems and/or documentation.
- Must possess excellent written and verbal communication skills and excellent interpersonal skills.
- Self-motivated and directed, with keen attention to detail, and ability to prioritize and execute on task.
- Ability to work effectively with IT Team leads and customers to ensure their business needs are met.
- Minimum of 4+ years of experience with relational database technology.

**List of preferred qualifications:**

- Bachelor of Science in one of the following subject areas: Computer Science, Information Technology, or related field (equivalent experience will be considered).
- 7+ years of related experience in software infrastructure development and management.
- 7+ years of experience in Information Technology supporting DoD customers.
- 2+ years of experience designing, developing, and managing enterprise level oracle databases.
- Experience designing systems from the ground up as well as assuming responsibility for existing systems and provide noticeable and significant improvements.
- Credentialed subject matter expert or recognized specialist in relevant field of expertise.
- Experience with the Procurement Integrated Enterprise Environment (PIEE) and the family of applications that reside within PIEE (WAWF, EDA, NCCS, GFP, JAM, etc.).

**Employee Benefits:**

- 401k Plan
- Medical, Dental, & Vision Benefits
- Long-Term & Short-Term Disability, Life Insurance
- 3 weeks PTO and Federal Holidays
- Salary dependent on skills and experience

**Working Conditions/Physical Demands:**

- Work is performed remotely.
